National Coin Week  
April 20-26, 1969

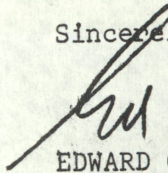

March 21, 1969

Dear Fellow Collector,

National Coin Week is nearing a little faster than most of us realize. April 20-26 will be one of the biggest events ever celebrated by the American Numismatic Association. The Food and Agriculture Organization of the United Nations (FAO) promise to release a series of special coins to coincide with National Coin Week, the 99 Company plan a special first day cover, and many other organizations will be participating for the first time.

Club entries are at an all time high, and I am once again writing to remind you that we would like to record your National Coin Week participation whether it be in the form of a scrapbook or a written report. Your efforts on behalf of National Coin Week should not go unrecognized; therefore, we look forward to hearing from you shortly on your participation.

Sincerely,

EDWARD C. ROCHETTE  
Chairman
